Project Title: McCullough-Victorville Lines 1 and 2 Upgrade Project

Project Applicant: Los Angeles Department of Water and Power

Project Location (include county): San Bernardino County

Project Description:

The proposed Project would upgrade the two existing single-circuit transmission lines to increase their capacity to newly rate them at approximately 570 kV from their current rating of 500 kV. The Project spans 162 miles from Boulder City, Nevada to the Victorville Switching Station in Victorville, California and consists of modifications and/or replacement of existing insulators and hardware assemblies, raising existing transmission towers as needed, replacing towers as needed within the footprints of existing tower sites, repairing or replacing damaged structural members, replacing conductors, ground wire, and re-tensioning conductors, repairing/retrofitting existing main access roads and spur roads, and replacing or reinforcing tower foundations where needed.

This is to advise that the Los Angeles Department of Water and Power has approved the above (Lead Agency or Responsible Agency)

described project on 10/22/24 and has made the following determinations regarding the above described project.

- 1. The project will have a significant effect on the environment.
2. An Environmental Impact Report was prepared for this project pursuant to the provisions of CEQA.
3. Mitigation measures were made a condition of the approval of the project.
4. A mitigation reporting or monitoring plan was adopted for this project.
5. A statement of Overriding Considerations was adopted for this project.
6. Findings were made pursuant to the provisions of CEQA.

This is to certify that the final EIR with comments and responses and record of project approval, or the negative Declaration, is available to the General Public at:

Los Angeles Department of Water and Power, 111 N. Hope St., Rm 1044, Los Angeles, CA 90012

Signature (Public Agency): Title: Manager, Environmental Planning and Assessment
