Exempt Status:

- Declared Emergency (Sec. 21080(b)(3); 15269(a))
- Emergency Project (Sec. 21080(b)(4); 15269(b)(c))
- Categorical Exemption(s). State type and section number: Class 2 (Section 15302)
Class 1 (Section 15301)
- Statutory Exemption(s). State code number: _____

Reasons Why Project is Exempt:

The project qualifies as a Class 2 exemption under State CEQA Guidelines Section 15302 - Replacement or Reconstruction, which covers the reconstruction of existing structures where the new structure will be located on the same site as the structure replaced and will have substantially the same purpose and capacity as the structure replaced. The project further classifies as a Class 1 exemption under State CEQA Guidelines Section 15301 - Existing Facilities, which covers additions to existing structures provided that the addition will not result in an increase of more than 50 percent of the floor area of the structures before the addition, or 2,500 square feet, whichever is less. The project scope is to demolish and rebuild 1,400 square feet and make an addition of 1,200 square feet to an existing 2,615-square-foot, one-story single-family residence with a 565-square-foot attached garage. The project not only involves reconstructing part of an existing structure, but it also involves a negligible expansion of use (less than 50 percent of existing floor area, or 1,590 square feet).
